nonprovisional	NO	\$1510	\$300	\$0	\$1810	10/23/2009

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

**Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE
Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450
or Fax (571)-273-2885**

INSTRUCTIONS: This form should be used for transmitting the ISSUE FEE and PUBLICATION FEE (if required). Blocks 1 through 5 should be completed where appropriate. All further correspondence including the Patent, advance orders and notification of maintenance fees will be mailed to the current correspondence address as indicated unless corrected below or directed otherwise in Block 1, by (a) specifying a new correspondence address; and/or (b) indicating a separate "FEE ADDRESS" for maintenance fee notifications.

CURRENT CORRESPONDENCE ADDRESS (Note: Use Block 1 for any change of address)

Note: A certificate of mailing can only be used for domestic mailings of the Fee(s) Transmittal. This certificate cannot be used for any other accompanying papers. Each additional paper, such as an assignment or formal drawing, must have its own certificate of mailing or transmission.

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 787 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 787 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

THE FORMAL WRITTEN REPLY TO THE LAST OFFICE ACTION MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW. (See MPEP Section 713.04). If a reply to the last Office action has already been filed, APPLICANT IS GIVEN A NON-EXTENDABLE PERIOD OF THE LONGER OF ONE MONTH OR THIRTY DAYS FROM THIS INTERVIEW DATE, OR THE MAILING DATE OF THIS INTERVIEW SUMMARY FORM, WHICHEVER IS LATER, TO FILE A STATEMENT OF THE SUBSTANCE OF THE INTERVIEW. See Summary of Record of Interview requirements on reverse side or on attached sheet.

/Kenneth Tang/ Examiner, Art Unit 2195	/Meng-Ai An/ Supervisory Patent Examiner, Art Unit 2195
---	--

Summary of Record of Interview Requirements

Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

37 CFR §1.2 Business to be transacted in writing.

All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: In order to place the application in condition for allowance, claims 1-27 were cancelled. In addition, independent claim 28 was amended such that it included the features of "wherein user-programmable event logic includes a user-programmable event register for storing" and "trigger response logic coupled to the user-programmable event logic and the event detection logic to monitor for the user-defined trigger event in response to receiving a user marking instruction". Additional amendments were made to the claim to overcome minor informalities with the claim. Finally, new claims 31-39 were added to resemble the claims of 28-30 with different statutory categories..

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David P. McAbee (Reg. No. 58,104) on 7/14/09.

The claims have been amended as follows:

Claims 1-27 are cancelled.

28. (Currently Amended) A processor comprising:

event detection logic to detect a raw event;

user-programmable event logic coupled to the event detection logic, wherein user-

programmable event logic includes a user-programmable event register for storing

~~to indicate~~ a user-defined trigger event, the user-defined trigger event to be based on at least the raw event;

user-programmable context control logic to specify a weight of a context to be saved; ~~and~~

Art Unit: 2195

trigger response logic coupled to the user-programmable event logic and the event detection logic to monitor for the user-defined trigger event in response to receiving a user marking instruction; and

thread switch logic coupled to the trigger response ~~user-programmable event~~ logic and the user-programmable context control logic, wherein the thread switch logic, in response to the user-defined trigger event being detected by the trigger response logic, to save a portion of a first context based on the weight of a context to be saved that is ~~to be~~ specified in the user-programmable context control logic and to switch the portion of ~~spawn~~ a helper thread context with the portion of the saved first context without operating system intervention.

29. (Currently Amended) The processor of claim 28, ~~wherein the user-programmable event logic includes at least a user-programmable event register, and wherein the user-defined trigger event is to be programmed in the user-programmable event register in response to execution of~~ the ~~a~~ user marking instruction.

30. (Currently Amended) The processor of claim 29, ~~further comprising trigger response logic coupled to the user-programmable event logic and the event detection logic to detect the user-defined trigger event based on at least the raw event,~~ wherein the trigger response logic is to monitor for the user-defined trigger

Art Unit: 2195

event for a predetermined timeout period after execution of the user-marking instruction.

31. (New) A system comprising:

a processor including event detection logic to detect a raw event; user-programmable event logic coupled to the event detection logic, said user-programmable event logic includes a user-programmable event register for storing a user-defined trigger event, the user-defined trigger event to be based on at least the raw event; user-programmable context control logic to specify a weight of a context to be saved; trigger response logic coupled to the user-programmable event logic and the event detection logic to monitor for the user-defined trigger event in response to receiving a user marking instruction; and thread switch logic coupled to the trigger response logic and the user-programmable context control logic, the thread switch logic, in response to the user-defined trigger event being detected by the trigger response logic, to save a portion of a first context based on the weight of a context to be saved that is specified in the user-programmable context control logic and to switch the portion of a helper thread context in place of the portion of the saved first context without operating system intervention; and

a system memory to be associated with the processor , the system memory to hold code for the helper thread.

Art Unit: 2195

32. (New) The system of claim 31, wherein the user-defined trigger event is to be programmed in the user-programmable event register in response to execution of the user marking instruction.
33. (New) The system of claim 32, wherein the trigger response logic is to monitor for the user-defined trigger event for a predetermined timeout period after execution of the user-marking instruction.
34. (New) A storage device including program code, which when executed by a machine, caused the machine to perform the operations of:
 - defining a user-defined trigger event based at least on a raw event of a processor in the machine by user-programmable event logic of the processor, wherein the user-programmable event logic includes a user-programmable event register;
 - defining a weight of a context to be switched in user-programmable context logic in the processor;
 - monitoring for the user-defined trigger event utilizing trigger response logic in response to executing a user-marking instruction in the program code; and
 - in response to detecting the user-defined trigger event with the trigger response logic:

saving a portion of a first context based on the weight of the context to be switched defined in the user-programmable context logic; and switching the portion of the first context with the portion of a helper thread context without operating system intervention.

35. (New) The storage device of claim 34, wherein the user-defined trigger event is to be programmed in the user-programmable event register in response to execution of the user marking instruction.
36. (New) The storage device of claim 33, wherein the trigger response logic is to monitor for the user-defined trigger event for a predetermined timeout period after execution of the user-marking instruction.
37. (New) A computerized method comprising:
defining a user-defined trigger event based at least on a raw event of a processor in the machine by user-programmable event logic of the processor,
wherein the user-programmable event logic includes a user-programmable event register;
defining a weight of a context to be switched in user-programmable context logic in the processor; and

monitoring for the user-defined trigger event utilizing trigger response logic in response to executing a user-marking instruction in the program code; and in response to detecting the user-defined trigger event with the trigger response logic:

saving a portion of a first context based on the weight of the context to be switched defined in the user-programmable context logic; and spawning a helper thread context by switching the portion of the helper thread context with the portion of the saved first context without operating system intervention.

38. (New) The computerized method of claim 37, wherein the user-programmable event logic includes at least a user-programmable event register, and wherein the user-defined trigger event is to be programmed in the user-programmable event register in response to execution of the user marking instruction.
39. (New) The computerized method of claim 38, wherein the trigger response logic is to monitor for the user-defined trigger event for a predetermined timeout period after execution of the user-marking instruction.
